

Dear Sir/Madam

I am Francis Chege Kamau, a Kenyan youth with 3 years of full-stack web development experience in developing dynamic web-based systems. I offer the technical expertise you are seeking for your Software Developer position.

Since earning my bachelor's degree in Microprocessors Technology and Instrumentation from the University of Nairobi, I have worked as a Software Developer at CODEPAMOJA and currently as a software developer at Dewcis Solutions Ltd. In this position, I have led Software Developer projects for clients in diverse industries including travel, Education, and financial services.

Known for creating robust, high-speed web and mobile apps, my Software Developer career has helped grow revenues, accelerate customer acquisition and deliver an industry-leading competitive advantage.

Please review my resume, which provides details of these projects and examples of skills in:

- **Web development** using PHP, Ajax, Angular, JavaScript/JQuery, HTML5, JSON, ReactJs, Java and Python
- **REST API** consuming and creating application interfaces to integrate with third-party systems.
- **UX and UI design projects** improving load time, site stickiness and user engagement
- **Database management systems** Advanced knowledge in relational and non-relational database management systems eg Postgres, MySQL, MSSQL and MONGO DB and developing complex PLPGSQL scripts.

As a web developer focused on customer satisfaction, I manage all aspects of web development from concept to requirements definition, design, development, launch, maintenance and user support. I enjoy the BACKEND role and working closely with team members to produce high-quality deliverables.

I look forward to learning more about the web developer position. If my skills match your requirements, please contact me at 0702771424 to schedule a meeting. Thank you.

Sincerely,

Francis Chege Kamau
